or would ever earn? Is this the way the House of Morgan keeps its influence in the affairs of the nation and the world?

If you had the hundred thousand in cash all ready to buy these 5,000 shares with a \$75,000 profit, would you turn the offer down? If you say you would, I'm just going to think you're an awful liar.

This love of money is a terrible thing. Christ said "How hardly shall a rich man enter the kingdom of heaven", and I think He knew what He was talking about.
